# NEOGLASS

THE FLOOR MOSAIC COLLECTION

SICIS  
THE ART MOSAIC FACTORY

Tempo di nuove scoperte, divagazioni ispirate, temporanei congedi dalla tradizione e uno sguardo rapido da un orizzonte che cambia.

L'artista mischia polveri e colori, modella, non solo immagina, costruisce forme osando al di là del confine delle convenzioni.

È questo il senso della modernità confermato dalla collezione NeoGlass, patrimonio artistico e tecnologico di SICIS.

Cubes, Domes, Barrells in una nuova gamma colori con l'integrazione del nuovo formato della collezione Petite Fleur, un piccolo fiore a sei petali: sono queste le unità fondamentali del mosaico NeoGlass, capace ora di evocare il lusso di preziosi damaschi, ora la stravaganza di certe allucinazioni pop in una città cosmopolita e contemporanea.

Particolarmente resistente al tempo e all'usura, nelle stesse infinite varianti colore, il vetro NeoGlass ha uno spessore di 6 mm per conferire ad ogni tessera impareggiabili doti di robustezza e contendere il primato al marmo nella realizzazione di mosaici pavimentali.

Effetti di luce sorprendenti, eteree modulazioni tono su tono di bianco, oro e platino, salti tonali improvvisi e vivaci, riflessi e cangianze di nero iridescente.

NeoGlass è una collezione eclettica e altamente versatile, può essere un pannello unico, un mosaico artistico inimitabile, o un modello replicabile in infinite varianti colore, può essere realizzato a terra oppure a parete.

Può essere un pattern replicato su grandi superfici e impreziosito qua e là da elementi decorativi, come accade nella linea Leaf, o generare affascinanti risultati Random in un superlativo intreccio casuale di tessere Domes e Barrells.

Oppure ancora, senza orpelli sull'essenziale, comporsi in semplicissime ed eleganti tinte unite magari circoscritte da un tocco unico di cornici, come le moulding o le bordure personalizzate.

C'est le temps de nouvelles découvertes, des divagations inspirées, d'un éloignement passager de la tradition et d'un regard rapide à partir d'un horizon changeant.

L'artiste mélange des poudres et des couleurs, il modèle, il n'imagine pas seulement, il construit des formes en osant au-delà des confins des conventions.

C'est ça le sens de la modernité confirmé par la collection NeoGlass, patrimoine artistique et technologique de SICIS.

Cubes, Domes, Barrells dans une nouvelle gamme de couleurs avec l'intégration du nouveau format de la collection Petite Fleur, une petite fleur à six pétales: voilà les unités fondamentales de la mosaïque NeoGlass, évoquant tour à tour le luxe de précieux tissus damassés et l'extravagance de certaines hallucinations pop dans une ville cosmopolite et contemporaine.

Tout particulièrement résistant au temps et à l'usure, dans les mêmes variantes infinies de couleur, le verre NeoGlass a une épaisseur de 6 mm pour conférer à chaque tesselle des qualités de robustesse sans pareilles et disputer la suprématie au marbre dans la réalisation de mosaïques de pavement.

Des effets de lumière surprenants, des modulations éthérées, ton sur ton de blanc, or et platine, des sauts de nuances inattendus et vivaces, des reflets et des chatoiements de noir iridescent.

NeoGlass est une collection éclectique et hautement versatile, qui peut se présenter sous la forme d'un panneau unique, d'une mosaïque artistique inimitable ou d'un modèle répliquable dans une infinité de variantes de couleurs, pouvant être réalisé sur le sol ou sur le mur.

Il peut s'agir d'un motif répliqué sur de grandes surfaces et enrichi, ici et là, d'éléments de décoration, comme c'est le cas pour la ligne Leaf, ou générer des résultats fascinants Random en créant un écheveau superlatif et fortuit de tesselles Domes et Barrells.

Ou encore, sans fioritures sur l'essentiel, créer des compositions toutes simples et de couleur unie, tout au plus entourées d'une touche unique faite de bordures, telle que le moulding ou les bordures personnalisées.

**T**hese are times of new discoveries, inspired digressions, temporary breaks from tradition and a gaze stolen by a changing horizon.

The artist blends powders and colours, shaping, not just imagining, constructing forms that dare beyond the boundaries of convention.

This is the sense of the modernity confirmed by the NeoGlass collection, the artistic and technological heritage of SICIS.

Cubes, Domes, Barrels in a new colour range featuring the additional new format of the Petite Fleur collection, a little six-petal flower: these are the basic units of the NeoGlass mosaic, now able to evoke the luxury of valuable damasks, the extravagance of pop hallucinations in a cosmopolitan, contemporary city.

Particularly resistant to time and wear in an infinity of colour variants, NeoGlass glass is 6 mm thick, granting each tile unparalleled robustness, and rising up to challenge marble's prime position in the development of floor mosaics.

Surprising light effects, ethereal white, gold and platinum ton-sur-ton modulations, sudden lively changes in colour, reflections and alterations in iridescent black.

NeoGlass is an eclectic, highly versatile collection. It can be a unique panel, an inimitable artistic mosaic, or a model to be repeated in infinite colour variants. It can be created on the floor or on the wall.

It can be a pattern repeated over large surfaces, embellished here and there with decorative elements as for the Leaf line. Or it can generate fascinating Random results in a superlative random weave of Domes and Barrels tiles.

Or even, without any fancies over and above the essential, it can form the simple, elegant, single colours, perhaps circumscribed by a unique touch of frames, like moulding or personalised edging.

**Z**eil für neue Entdeckungen, inspirierte Ausschweifungen, vorläufige Abweichungen von der Tradition und ein Blick, der von einem sich verändernden Horizont eingefangen wird.

Der Künstler mischt Pulver und Farben, modelliert, entwickelt nicht nur Ideen sondern bildet Formen, indem er es wagt, die Grenze des Üblichen zu überschreiten.

Das ist der Sinn der Modernität, der von der Kollektion NeoGlass, einem künstlerischen und technologischen Vermögen von SICIS, bestätigt wird.

Cubes, Domes, Barrels in einer neuen Farbpalette, die durch das neue Format der Kollektion Petite Fleur ergänzt wird, einer kleinen Blume mit sechs Blütenblättern: Dies sind die grundlegenden Elemente des Mosaiks NeoGlass, das in der Lage ist, jetzt den Luxus edlen und zeitgenössischen Stadt wiederzugeben.

Besonders dauerhaft und abnutzungsfest weist das Glas von NeoGlass in den gleichen unendlichen Farbvarianten eine Dicke von 6mm auf, die jedem Mosaikstein eine unvergleichbare Robustheit verleiht und dem Marmor seinen ersten Platz bei der Herstellung von Fußbodenmosaiks streitig macht.

Überraschende Lichteffekte, ätherische Ton-in-Ton-Variationen von Weiß, Gold und Platin, plötzliche farbliche Sprünge, Reflexe und in Regenbogenfarben schillerndes Schwarz.

NeoGlass ist eine eklektische und äußerst vielseitige Kollektion. Sie kann als ein einheitliches Panel, als ein unnachahmliches künstlerisches Mosaik oder als ein in unendlichen Farbvarianten wiederholbares Modell auftreten. Sie kann aber auch an der Wand verlegt werden.

Sie kann ein Pattern sein, das sich auf großen Oberflächen wiederholt sowie hier und da durch Dekorelemente bereichert wird, wie bei der Linie Leaf. Sie kann aber auch reizvolle Random-Ergebnisse in einer außergewöhnlich zufälligen Verflechtung der Mosaiksteine Domes und Barrels hervorrufen.

Außerdem kann sie sich, ohne überflüssige Zusätze, aus äußerst einfachen und eleganten einfarbigen Tönen zusammensetzen, die unter Umständen von einzigartigen Rahmen umgeben werden, wie den Moulding oder den personalisierten Bordüren.

PETITES

A woman with long dark hair stands in a room with walls covered in a large-scale, abstract pattern of red and black. The pattern consists of numerous small, irregular shapes that create a textured, almost floral or organic feel. The lighting is dramatic, with strong highlights and shadows that emphasize the depth and movement of the design. The woman is positioned in the center-left of the frame, looking towards the camera with a neutral expression.

SICIS

A close-up photograph of a floor covered in a intricate mosaic pattern. The pattern consists of numerous small, rounded tiles in shades of blue, purple, and white, arranged in a repeating circular motif. Several large, solid white spheres are scattered across the floor, some resting on the mosaic and others on a light-colored wooden surface. One sphere has a small, dark hole at its top. The overall composition is abstract and artistic.
