SICIS

i'Pix

Mosaic Collection

*Si arricchisce nuovamente la Collezione **i'Pix** che nelle sue innumerevoli varianti decorative e cromatiche, prende vita sul monitor di un computer, con il semplice tocco di un mouse, come uno stilista di moda che declina le fantasie di un abito con l'aiuto della tecnologia digitale. In **i'Pix** una creatività tutta italiana definisce texture e disegni che utilizzano le tessere di mosaico al posto dei pixel (l'unità di misura puntiforme delle immagini video). **i'Pix** riproduce e fa propria la frammentarietà delle superfici digitali creando intricati e complessi motivi geometrici, ricreando pellami, damaschi, fiori, e astrazioni materiche, così come appare nella videoarte quando si osservano immagini video a distanze ravvicinate.*

*Come l'accostamento di diversi tessuti che compongono un elegante abito da sera, in **i'Pix** confluiscono le diverse collezioni di mosaico SICIS; tessere trasparenti o iridescenti, specchiate o ramate, zigurate o martellate. La Collezione **i'Pix** miscela tessere "ton-sur-ton" o a contrasto creando una rosa di pannelli inimitabili; figurativi o astratti, dai toni caldi e cremosi o dai toni freschi ed acquatici.*

Nascono così superfici assolutamente sorprendenti, adattabili a qualsiasi ambiente, proprio come un vestito da sogno declinato su misura, per un prezioso tocco di custom-design che riveste lo spazio secondo lo stile unico ed il "savoir faire" di SICIS, la Maison 100% made in Ravenna.

The i'Pix Collection enriches itself by new products. A pixel is universally defined as the smallest single component of a digital image. SICIS **i'Pix** defines texture and design, utilizing mosaic chips as distinct scalar elements of a multi-component representation. As a designer would select and combine various materials to create an elegant evening dress, **i'Pix** incorporates SICIS's diverse glass mosaic collections, including transparent, iridescent, mirrored, and textured materials.

With over 500 colors, our client is presented with the freedom to choose from innumerable variations, patterns, and palettes. With this autonomy, the **i'Pix** collection demonstrates infinitude, creating inimitable patterns ranging from tone on tone to strong contrasts, both figurative and abstract. The surfaces are surprising, adaptable to every type of ambience, with the precious touch of custom design to clad ones space with the unparalleled savoir faire of SICIS, la Maison 100 % made in Ravenna, Italy.

Composition with artistic insert

Size: 390 x 270 cm · 212 5/8" x 106 1/4"

The image is a highly pixelated, mosaic-style illustration of a tropical landscape. It features several palm trees of varying heights and a building with a flat roof on the left side. The color palette is primarily dark blues, greys, and blacks, with highlights in white, yellow, and light blue. The overall effect is that of a low-resolution digital artwork or a heavily dithered image.

Field color: Colibri Icemir

A man with a beard and sunglasses is wearing a vibrant red blazer over a black t-shirt. He is holding a smartphone in his right hand. The background is a wall covered in a mosaic of small, square tiles in various shades of red, white, and grey. The man's face is partially obscured by a horizontal motion blur effect.

SICIS
Green

A sostegno dell'impegno di SICIS verso l'ambiente, i prodotti SICIS vengono sottoposti a prove che confermano le caratteristiche ecologiche e il loro relativo contributo alle certificazioni quali LEED, Green Communities e Green Globes.

La sapiente applicazione del mosaico sostiene il design concept di BIOPHILIA.

In support of SICIS's commitment to environmental performance, SICIS products have undergone testing to confirm green attributes and their associated contribution to certifications including LEED, Green Communities and Green Globes.

The artful application of mosaic finishes can support the design concept of BIOPHILIA.
